

June has gotten off to a busy start!

Last week, the AQMD Governing Board voted 7-5 to reject the proposed Rules 1111 and 1121. This decision means we can all breathe a sigh of relief knowing that crippling environmental regulations on our furnaces and water heaters won't be taking effect. I'm proud to have raised the alarm on this issue last December during my time on the AQMD Governing Board, which helped build bipartisan opposition and ultimately led to the rules' defeat.

At Tuesday's Board of Supervisors meeting, the Board supported the proposed 2025-26 budget. The total budget stands at \$10.8 billion, of which only \$1.2 billion are discretionary funds. Final approval is expected at the Board's next meeting later this month. I look forward to the passage of this balanced budget, which ensures the continued delivery of essential county services to our constituents.

With summer just around the corner, I'm excited for all the wonderful community events we have planned! Be sure to check out OC Park's Summer Concert and Summer Cinema series, as well as the Silverado Summer Concert Series. Their schedules are listed below.

IN THE NEWS

SCAQMD BOARD OF DIRECTORS REJECT HARMFUL ENVIRONMENTAL RULES AFTER MASSIVE PUBLIC PRESSURE

On Friday, the South Coast AQMD Governing Board voted to reject proposed rules 1111 and 1121 on a 7-5 vote. The board heard the overwhelming opposition from homeowners, renters, businesses, and the rest of the public who would have been decimated by these rules. This is a victory for everyone in the Southern California region who support our housing industry and a strong quality of life. I am proud to have first raised the alarm over these rules during my time on the SCAQMD board and thank my former colleagues for their wise and responsive decision.

The SCAQMD board avoided the implementation of financially crippling mandates to phase out gas water heaters and furnaces that would devastate people all over the region, especially right here in Orange County, without making significant gains in cleaner air.

I want to thank all of my colleagues here in Orange County, including local elected officials, businesses, community organizations, homeowners and grass roots citizen groups and individuals in first pressuring SCAQMD to water down their rules, and ultimately to kill these rules altogether.

Let me be clear. While this outcome is welcome and worthy of celebrating, the fact that this vote was so close is a clear reminder that we must remain vigilant in protecting the public from these types of destructive environmental mandate schemes dreamed up by unelected bureaucrats.

Take a look at my interview with KCAL News from the day before the vote.

THE MORNING ANSWER

On Monday, I joined Jennifer Horn on The Morning Answer to discuss the ongoing riots in Los Angeles as well as my role in the welcome defeat of proposed crippling environmental mandates at the South Coast AQMD Governing Board meeting last Friday.

FLAG DAY

On June 14th, 1777, the Second Continental Congress adopted the 13-starred "Betsy Ross Flag" as the official flag of the United States of America.

248 years later, our flag now has 50 beautiful stars as America has become the greatest nation in history.

Wishing you all a happy Flag Day!

US ARMY 250TH ANNIVERSARY

250 years ago, on June 14, 1775, the Continental Army was formed two months after the Battles of Lexington and Concord. The "shot heard round the world" ushered in the American Revolution and the eight-year conflict that it took for us to achieve independence from Great Britain.

That monumental act of establishing an army provided resolve behind America's decision to declare sovereignty from a King who had abused his power for far too long.

Since then, the US Army has evolved from a ragtag group of rebels striving for independence to the world's most advanced and skilled fighting force, one that has more than once saved peoples and nations from the grip of tyranny.

God bless all the soldiers of the US Army who have selflessly put their lives on the line to defend this great nation and ensure peace and prosperity not only at home but across the globe for the last 250 years.

IN THE COMMUNITY

OCFA BEST AND BRAVEST AWARDS

I attended the 17th Annual Orange County Fire Authority Best and Bravest Awards, honoring the remarkable achievements of our firefighters and OCFA team over the past year.

As a Director on the OCFA Board, I am proud and deeply grateful for the dedication and courage of the men and women who keep our communities safe. Thank you to all the brave men and women of the OCFA who serve our County!

41ST ANNUAL TUSTIN STREET FAIR AND CHILI COOK OFF

On Sunday, June 1, I joined the 41st Annual Tustin Street Fair & Chili Cook-Off.

I want to thank the City of Tustin, Mayor Austin Lumbard, my very own Policy Advisor, Al Murray, a former Tustin Mayor himself, and all others involved for putting together this fantastic event that brings the whole community together.

CITY OF HOPE KEY CEREMONY

The City of Hope Orange County has officially received the keys to its new hospital building from Hensel Phelps, the builder, marking the successful completion of Orange County's first and only cancer specialty hospital, slated to open its doors later this year.

Annette Walker, president of City of Hope Orange County, told the crowd that the massive project took 34 months to complete and amassed an impressive 1.2 million hours of work by the construction crew. To put that into perspective, if a single person had undertaken the project alone, it would have taken a staggering 577 years to finish.

This project was launched in Irvine when I was Mayor. I am now honored to welcome the City of Hope to Orange County on behalf of the 630,000 residents I'm privileged to represent.

ANAHEIM CHAMBER LUNCHEON

Last Friday, I opened the Anaheim Chamber of Commerce Luncheon with an invocation, setting the tone for an inspiring afternoon at the iconic Angel Stadium.

This year's event highlighted a valued community partner — the Anaheim Family YMCA, which has been serving families across Anaheim since 1911. Their continued commitment to uplifting youth and strengthening our neighborhoods is a true testament to the power of community.

Attendees also enjoyed a special conversation with Angels pitcher Ryan Zeferjahn, who shared insights from the mound in a conversation led by Angels Broadcaster Trent Rush.

A memorable day celebrating local impact — all in the heart of Anaheim.

NATIONAL DONUT DAY

June 6th was Donut Day! Its origins trace back to World War I, when the Salvation Army's "Donut Lassies" served these sweet treats to soldiers.

Today, National Donut Day is both a tribute to the Donut Lassies' selfless service and a moment to honor the bravery of veterans.

We had a wonderful time visiting donut makers in various cities—dedicated early risers who ensure we get to enjoy delicious donuts all year long. Hats off to these incredibly hardworking individuals who brighten our communities one delicious donut at a time!

IRVINE POLICE DEPARTMENT 50TH ANNIVERSARY

My Community Outreach Director, Saga Conroy, joined the Irvine Police Department's 50th Anniversary Breakfast on my behalf.

This was a spectacular event, celebrating five decades of Irvine's finest and all they do to keep the city safe.

Police Chief Michael Kent gave over 400 police officers a full review of the department's history and thanked them for their continued dedication in keeping the city safe.

Congratulations to Irvine PD for its 50 years of protecting and serving!

MSI 50TH ANNIVERSARY AND GROUNDGREAKING

My Field Representative, Pat Buttress, presented a certificate of recognition to MSI owners Manu & Rika Shah as they and their sons celebrated their 50th Anniversary and broke ground for their new multi-million dollar international corporate headquarters in the City of Orange.

MSI is a showroom and distribution center with a selection of tiles, stone, and quartz countertops. The Shah family arrived in the United States from India in the 1970s and today have annual revenues over \$2.5 billion and 3,000+ U.S. employees. MSI has helped create over 400,000 jobs around the world across their supplier base.

Congratulations on 50 years!

MISSION HOSPITAL TRAUMA CENTER 45TH ANNIVERSARY

My Field Representative, John Polk, presented a certificate of recognition at the 45th Anniversary Celebration of Providence Mission Hospital's Trauma Center in Mission Viejo.

Providence Mission Hospital is South Orange County's only American College of Surgeons verified adult and pediatric level II trauma center and the first trauma center established in Orange County.

The dedicated specialists who work in the trauma center provide life-saving care to nearly 4,500 patients each year.

Congratulations on 45 years!

 Proceeds benefit Silverado Modjeska Recreation and Park District and Zachary Dupre Concert Venue Upgrades

MOSQUITO SEASON

Orange County Mosquito and Vector Control District
ocvector.org

LIFE CYCLE OF AN Aedes MOSQUITO

MAINTAIN YOUR DRAIN

It's crucial to keep your yard drain well-maintained if you want to avoid breeding Aedes mosquitoes in it. These mosquitoes are known for their ability to lay eggs in even the smallest water sources, and a clogged or neglected drain can easily become a breeding ground for them.

In addition to yard drains, other sources such as bird baths, flower pots and gutters should also be regularly cleaned and maintained.

MOSQUITOES IN ORANGE COUNTY

Are you tired of getting bitten by mosquitoes while enjoying a nice walk or relaxing on your porch with a cup of coffee? This mosquito is known as the arctic blue, also known as the Aedes mosquito. These black and white striped mosquitoes are known for biting during the daytime and can be found in every city in Orange County.

While the Orange County Mosquito and Vector Control District conducts wide area treatments, smaller sources of water around your pets, yard or indoor space can also attract mosquitoes. These insects only need a small amount of water to complete their life cycle, so it is important for every resident to take an active role in mosquito control.

RESOURCES

Orange County Mosquito and Vector Control District (OCMVCD) provides a range of resources to help residents take an active role in mosquito control.

One of the resources offered is the DIY page. This page provides step-by-step instructions on how to control mosquitoes in your yard. You can learn how to identify mosquito breeding sources, eliminate stagnant water and use insecticides safely and effectively. Visit ocvector.org for more information.

MOSQUITOES CAN MAKE YOU SICK!

Eliminate mosquito breeding in your garden.

Plants need water to grow. But water that stands for longer than 4 days can become a breeding site for mosquitoes. Water-holding plants can create hundreds of mosquitoes and increase the risk of mosquito transmitted diseases if a local outbreak was to occur. Use these tips to reduce mosquito breeding and prevent invasive mosquitoes.

General tips

- ☐ Maintain irrigation systems to avoid standing water.
- ☐ Flush water-holding plants with clean water and turn over to drain.
- ☐ Avoid water-holding plants in displays that cannot be drained every 4 days (living walls, heavy containers).
- ☐ Root plants in material that limits standing water (e.g., perlite, plant gel, water storing crystals).
- ☐ Inspect garden weekly for mosquito larvae. Contact your local mosquito and vector control district for guidance.
- ☐ Store open containers upside down or place under cover to avoid rainfall and irrigation water.

Water feature tips

- ☐ Circulate water with a pump.
- ☐ Flush out and replace water every 4 days.
- ☐ Use a larvicide treatment.
- ☐ Place mosquito-eating fish in water (often available for free from local mosquito and vector control agencies).
- ☐ Thin aquatic plants so fish can access all areas.

Bromeliad tips

- ☐ Water bromeliads at the roots and keep the tanks and cups free of water.
- ☐ Keep any remaining standing water clear, free of debris, and flushed frequently.
- ☐ Prevent bromeliads from multiplying and growing into a dense mass.
- ☐ Avoid planting in landscapes or other features that cannot be turned over.

ELECTRICAL FIRE SAFETY

Home electrical fires are responsible for an estimated 80,000 fires and \$1.3 billion in property damage each year. Protect your family and your home by following these electrical safety tips.

Inspections by qualified electricians reduce fire risk and are required by many home insurance policies.

Orange County Fire Authority

(714) 573-6200
ocfa.org

Appliances

- Always plug major appliances directly into wall outlets.
- Unplug small appliances when they are not in use.
- Check electrical cords on all appliances regularly. Replace any cracked, damaged, or loose cords. Never try to fix them yourself.
- Place lamps on level surfaces, away from things that can burn.
- Always use bulbs that match the recommended wattage for each lamp or fixture.

Outlets

- Never overload wall outlets.
- Insert plugs fully into sockets.
- Install tamper-resistant electrical outlets if you have young children.

Extension Cords, Power Strips, and Surge Protectors

- Replace worn, old, or damaged extension cords right away.
- Only use extension cords for a short period of time.
- Do not run electrical cords across doorways or under carpets.
- Do not overload power strips.
- Use surge protectors, not power strips, with electrical devices that require a lot of electricity to operate.

Electrical Fire Warning Signs

- Frequent problems with blowing fuses or tripping circuit breakers
- A tingling feeling when you touch an electrical appliance
- Discolored or warm wall outlets
- A burning or rubbery odor coming from an appliance
- Flickering lights
- Sparks from an outlet

LITHIUM-ION BATTERIES

In today's technology driven world, lithium-ion batteries are powering electric vehicles, cell phones, e-bikes, laptops, toys, smoke alarms and power tools. These batteries can be dangerous if they overheat, and can cause a fire or explosion. Keep yourself and your family safe by following these safety tips.

According to the Data Bridge Market Research, the global lithium-ion battery market was valued at 6.70 billion in 2021 and is expected to reach 26.28 billion by 2029.

Orange County Fire Authority
(714) 573-6200
ocfa.org

Lithium-Ion Battery Fires:

- Emit toxic gases within seconds
- Burn hotter and faster than others
- Can't be smothered like other fires
- Can cause explosions within seconds
- Can reignite up to 21 days later!

Safety Tips

- Purchase batteries that are listed by a Nationally Recognized Testing Lab (NRTL)
- Know the manufacturer instructions and safety information for use, storage, charging and maintenance
- Never overload your outlet when charging any device with a lithium-ion battery
- Never place the batteries in direct sunlight or a hot vehicle
- Store batteries in a cool, dry location

Charging and Disposal

- Charge the device properly and only with the cords that came with the device
- Unplug the device once it is fully charged
- Do not charge batteries when the environment is below freezing (32°F) or too hot (130°F)
- Never charge the device under a pillow, on your bed or on a couch.
- Keep lithium-ion batteries away from combustible materials when charging
- Never throw lithium-ion batteries in the trash
- Contact your local recycling center or waste management department for proper disposal
- Do not put discarded batteries together in a container or pile

Warning Signs

- Unusual odor
- Change in color
- Too hot to the touch
- Change in shape
- Not keeping a charge
- Smoking or sparking when plugging in
- Unusual Noises (popping, hissing, buzzing)
- Leaking of liquid

If You Have a Fire From a Lithium-Ion Battery

- Leave the area immediately as the batteries emit toxic gases and burn extremely hot, with explosions occurring in seconds
- Call 9-1-1
- DO NOT try to fight or extinguish the fire
