

July has been a busy month!

I travelled to Sacramento to support Assemblywoman Sharon Quirk-Silva's bill, AB 571, which would end the desperate effort of a few Irvine residents to stop the Orange County Veterans Cemetery through a misuse of California's environmental laws. With this bill, we have moved another big step towards a proper resting place for our Orange County Veterans.

In other news, Congresswoman Young Kim's bill, HR 3095, will grant North Tustin its own unique zip code, freeing it from the local taxes tied to neighboring Santa Ana. I have been advocating for this change for many years and worked closely with Congresswoman Kim to have this come to fruition. I'm delighted that it finally passed the House with bipartisan support!

As we enter August, I look forward to another busy month of serving the residents of the Thriving Third District.

IN THE NEWS

OP-ED: THE FIFTH AMENDMENT AND LATE NIGHT PARDONS

Take a look at my latest op-ed in the California Globe where I discuss former Biden Administration officials' decisions to plead the fifth during congressional hearings regarding former President Biden's mental aptitude during his presidency.

You can read the article [here](#).

THE MORNING ANSWER

Last week, I joined Jennifer Horn and Grant Stinchfield to discuss Governor Gavin Newsom's hypocritical criticism of Texas's proposal to redistrict its congressional seats, while he is openly considering upending California's Independent Redistricting Commission and the will of the voters to do the same for Democrats in this state.

You can listen to the full interview [here](#).

IN THE COMMUNITY

AB-571 PRESS CONFERENCE IN SACRAMENTO

On July 14th, I stood on steps of the State Capitol to speak in strong support of AB 571 and to reaffirm Orange County's unwavering commitment to finally delivering a veterans cemetery for our community.

I want to commend Assemblymember Sharon Quirk-Silva for her extraordinary leadership. For over a decade, she and I have worked to build coalitions, navigate political challenges, and never lost sight of the mission.

Support for AB 571 is broad and bipartisan. All 34 cities in Orange County, over 150 veterans organizations, public safety leaders, labor groups, and elected officials at every level have united behind the cause of creating this cemetery.

Orange County remains the largest county in California without a veterans cemetery. That must change. This is about gratitude, but it's also about fulfilling our responsibility to those who served.

With AB 571, we are moving forward together to deliver the dignity and final resting place our veterans so deeply deserve.

CRAWFORD CANYON PARK CONSTRUCTION SITE VISIT

On July 17th, I visited the construction site of Crawford Canyon Park, a much-anticipated new neighborhood park coming to North Tustin!

OC Public Works and OC Parks joined me on-site to share an update on the progress, and I'm happy to report that the park is on track to open this fall.

This 2.5-acre space near Newport Ave. and Crawford Canyon Rd. will provide a beautiful new park and public walkway for the community to enjoy. I am grateful to our County team for turning this area into something truly special for local families!

FIRE STATION 24 GRAND OPENING IN MISSION VIEJO

Paradise Photography OC

This month, we celebrated the Grand Opening of Fire Station 24 in Mission Viejo!

As a Director on the Orange County Fire Authority Board, I'm proud to have played a role in bringing this state-of-the-art station to life. It will enhance emergency response and support our dedicated firefighters as they continue to protect our community.

Thank you to everyone who made this project possible!

NORTH TUSTIN ZIP CODE BILL PASSES US HOUSE

I'm pleased to see the House has passed Rep. Young Kim's bill to secure a unique zip code for North Tustin. This is a critical step toward resolving a long-standing tax issue burdening the community.

For years, I've heard from residents frustrated by taxation without representation. They were paying Santa Ana sales tax rates yet living in the lower taxed unincorporated North Tustin. A unique zip code will help prevent this issue.

Thank you to Congresswoman Kim for working with me on this important effort and delivering results for our shared constituents. Now, on to the Senate!

Read more on the bill's passage [here](#).

VISIT TO ORANGE COUNTY RESCUE MISSION'S NEW WOMAN AND CHILDREN'S BUILDING

I had the opportunity to tour the Orange County Rescue Mission's newly expanded Women & Children's Building at Double R Ranch in Silverado Canyon last week.

This incredible facility will provide housing for up to 68 women and children—some of the most vulnerable members of our community. With 17 dorm rooms, this expansion will offer a safe space, along with counseling, rehabilitation, and job training to help these families get back on their feet.

Thank you to Bryan Crain and the entire team at the Orange County Rescue Mission for your unwavering commitment. Learn more about their inspiring work at <http://www.rescuemission.org>

OC PARKS SUNSET CINEMA SERIES AT YORBA REGIONAL PARK

Thank you to everyone who came to watch "Miss Congeniality" at the free Orange County Parks Sunset Cinema Series at Yorba Regional Park in Anaheim.

A big thanks to OC Parks, park rangers and staff for hosting this event and for those of you who stopped by our booth to say "hello!"

If you want to learn more about the OC Parks Sunset Cinema Film Series, please visit OCParks.com and you will find a listing of movie showings hosted by OC Parks.

All movies are free to attend, with free parking beginning at 6:00 p.m. and showtimes starting around 8 p.m., after sunset. Bring blankets, beach chairs, and the kids! Moviegoers can purchase delicious bites and snacks at the food trucks and concession booths on-site as well.

Sept. 20 6:00-7:30 Jewish Priest Rock Hits! 8:00-9:45 Atomic Jones Tom Jones Tribute!	

BBQ Hamburger Plates Available from 6:00 to 8:00

The Sound Man: Matt Borden, Mountain Majesty Music - 714-333-5616

Proceeds benefit Silverado Modjeska Recreation and Park District and Zachary Dupre Concert Venue Upgrades

*** SILVERADO SUMMER CONCERT SERIES ***

MOSQUITO SEASON

Orange County Mosquito and Vector Control District
ocvector.org

LIFE CYCLE OF AN Aedes MOSQUITO

MAINTAIN YOUR DRAIN

It's crucial to keep your yard drain well-maintained if you want to avoid breeding Aedes mosquitoes in it. These mosquitoes are known for their ability to lay eggs in even the smallest water sources, and a clogged or neglected drain can easily become a breeding ground for them.

In addition to yard drains, other sources such as bird baths, flower pots and gutters should also be regularly cleaned and maintained.

MOSQUITOES IN ORANGE COUNTY

Are you tired of getting bitten by mosquitoes while enjoying a nice walk or relaxing on your porch with a cup of coffee? This mosquito is known as the arctic blue, also known as the Aedes mosquito. These black and white striped mosquitoes are known for biting during the daytime and can be found in every city in Orange County.

While the Orange County Mosquito and Vector Control District conducts wide area treatments, smaller sources of water around your pets, yard or indoor space can also attract mosquitoes. These insects only need a small amount of water to complete their life cycle, so it is important for every resident to take an active role in mosquito control.

RESOURCES

Orange County Mosquito and Vector Control District (OCMVCD) provides a range of resources to help residents take an active role in mosquito control.

One of the resources offered is the DIY page. This page provides step-by-step instructions on how to control mosquitoes in your yard. You can learn how to identify mosquito breeding sources, eliminate stagnant water and use insecticides safely and effectively. Visit ocvector.org for more information.

MOSQUITOES CAN MAKE YOU SICK! Eliminate mosquito breeding in your garden.

Plants need water to grow. But water that stands for longer than 4 days can become a breeding site for mosquitoes. Water-holding plants can create hundreds of mosquitoes and increase the risk of mosquito transmitted diseases if a local outbreak was to occur. Use these tips to reduce mosquito breeding and prevent invasive mosquitoes.

General tips

- ☐ Maintain irrigation systems to avoid standing water.
- ☐ Flush water-holding plants with clean water and turn over to drain.
- ☐ Avoid water-holding plants in displays that cannot be drained every 4 days (living walls, heavy containers).
- ☐ Root plants in material that limits standing water (e.g., perlite, plant gel, water storing crystals).
- ☐ Inspect garden weekly for mosquito larvae. Contact your local mosquito and vector control district for guidance.
- ☐ Store open containers upside down or place under cover to avoid rainfall and irrigation water.

Water feature tips

- ☐ Circulate water with a pump.
- ☐ Flush out and replace water every 4 days.
- ☐ Use a larvicide treatment.
- ☐ Place mosquito-eating fish in water (often available for free from local mosquito and vector control agencies).
- ☐ Thin aquatic plants so fish can access all areas.

Bromeliad tips

- ☐ Water bromeliads at the roots and keep the tanks and cups free of water.
- ☐ Keep any remaining standing water clear, free of debris, and flushed frequently.
- ☐ Prevent bromeliads from multiplying and growing into a dense mass.
- ☐ Avoid planting in landscapes or other features that cannot be turned over.

ELECTRICAL FIRE SAFETY

Home electrical fires are responsible for an estimated 80,000 fires and \$1.3 billion in property damage each year. Protect your family and your home by following these electrical safety tips.

Inspections by qualified electricians reduce fire risk and are required by many home insurance policies.

Orange County Fire Authority

(714) 573-6200
ocfa.org

Appliances

- Always plug major appliances directly into wall outlets.
- Unplug small appliances when they are not in use.
- Check electrical cords on all appliances regularly. Replace any cracked, damaged, or loose cords. Never try to fix them yourself.
- Place lamps on level surfaces, away from things that can burn.
- Always use bulbs that match the recommended wattage for each lamp or fixture.

Outlets

- Never overload wall outlets.
- Insert plugs fully into sockets.
- Install tamper-resistant electrical outlets if you have young children.

Extension Cords, Power Strips, and Surge Protectors

- Replace worn, old, or damaged extension cords right away.
- Only use extension cords for a short period of time.
- Do not run electrical cords across doorways or under carpets.
- Do not overload power strips.
- Use surge protectors, not power strips, with electrical devices that require a lot of electricity to operate.

Electrical Fire Warning Signs

- Frequent problems with blowing fuses or tripping circuit breakers
- A tingling feeling when you touch an electrical appliance
- Discolored or warm wall outlets
- A burning or rubbery odor coming from an appliance
- Flickering lights
- Sparks from an outlet

LITHIUM-ION BATTERIES

In today's technology driven world, lithium-ion batteries are powering electric vehicles, cell phones, e-bikes, laptops, toys, smoke alarms and power tools. These batteries can be dangerous if they overheat, and can cause a fire or explosion. Keep yourself and your family safe by following these safety tips.

According to the Data Bridge Market Research, the global lithium-ion battery market was valued at 6.70 billion in 2021 and is expected to reach 26.28 billion by 2029.

Orange County Fire Authority
(714) 573-6200
ocfa.org

Lithium-Ion Battery Fires:

- Emit toxic gases within seconds
- Burn hotter and faster than others
- Can't be smothered like other fires
- Can cause explosions within seconds
- Can reignite up to 21 days later!

Safety Tips

- Purchase batteries that are listed by a Nationally Recognized Testing Lab (NRTL)
- Know the manufacturer instructions and safety information for use, storage, charging and maintenance
- Never overload your outlet when charging any device with a lithium-ion battery
- Never place the batteries in direct sunlight or a hot vehicle
- Store batteries in a cool, dry location

Charging and Disposal

- Charge the device properly and only with the cords that came with the device
- Unplug the device once it is fully charged
- Do not charge batteries when the environment is below freezing (32°F) or too hot (130°F)
- Never charge the device under a pillow, on your bed or on a couch.
- Keep lithium-ion batteries away from combustible materials when charging
- Never throw lithium-ion batteries in the trash
- Contact your local recycling center or waste management department for proper disposal
- Do not put discarded batteries together in a container or pile

Warning Signs

- Unusual odor
- Charge in color
- Too hot to the touch
- Change in shape
- Not keeping a charge
- Smoking or sparking when plugging in
- Unusual Noises (popping, hissing, buzzing)
- Leaking of liquid

If You Have a Fire From a Lithium-Ion Battery

- Leave the area immediately as the batteries emit toxic gases and burn extremely hot, with explosions occurring in seconds
- Call 9-1-1
- DO NOT try to fight or extinguish the fire

November 2022

WHAT IS A PUBLIC SAFETY POWER SHUTOFF (PSPS)?

A PSPS is when an electric utility temporarily shuts off power to reduce the risk of a wildfire caused by utility equipment. Dangerous fire weather conditions — which include strong winds, dry vegetation and low humidity — drive PSPS events. Sometimes PSPS lasts over 24 hours.

Learn more about PSPS and get answers to frequently asked questions at ocps.com/pssp.

SIGN UP FOR ALERTS

Alerts are available for anyone. Before a potential PSPS, we'll send notifications via email, text or phone messages. We'll keep you informed during the outage and when power has been restored. Advance notifications may not be possible in unexpected weather conditions. Sign up for PSPS alerts in English or other available languages at ocps.com/alerts.

EMERGENCY RESOURCES

Essential services and resources are available to help you prepare for an emergency and navigate PSPS events.

PREPARING FOR PSPS

- Have a plan and prepare your home to keep your family safe during any outage. That includes a list of the location of emergency items such as water bottles, battery-operated radios, flashlights, fire and first aid kits, extra batteries and working batteries.
- Refer to our [limited checklist](#) to prepare for a PSPS outage.
- Download the [Orange County PSPS app](#) or download the MyOC mobile app.

GENERATOR AND BATTERY REBATES

- A free backup battery to help power medical devices during outages is available to customers living at high fire risk areas and enrolled in OC's Medical Resilience Discount program.
- Visit the [SCL Marketplace](#) for portable power options and generators. Receive up to \$1,000 rebate for qualifying residential portable power stations and up to \$500 for qualifying portable generators.

CUSTOMER SUPPORT PROGRAMS

- Find resources and support for customers with access and functional needs, as well as community assistance and emergency preparedness information at ocps.com/ocps.
- If you or someone in your house relies on electricity for health reasons, visit ocps.com/health to prepare and stay safe during PSPS events.
- OC Community Resource Centers and Community Care facilities are located or open to provide assistance to customers during PSPS events. OC and OC's business are listed on the ocps.com/health during PSPS.
- Hotel discounts during prolonged outages can be found at ocps.com/hotel-discounts.

STAY SAFE DURING A POWER OUTAGE

- Never touch or approach a downed power line — stay at least 100 feet away. When safe, call 911 immediately.
- Unplug appliances and electronics to avoid damage or data loss. If you have electric grills or griddles, turn to operate them manually.
- Gasoline and gas-powered generators should never be used indoors. Generators and batteries should not be connected directly to household circuits without the appropriate safety equipment. Doing either is dangerous for you and repair crews.
