

August has been productive, among other things, with the Board of Supervisors approving my resolution to support CalVet's application to the US Department of Veterans Affairs for the long-awaited Southern California Veterans Cemetery in Gypsum Canyon. We are one step closer to this Veterans Cemetery becoming a reality!

In other news, I had the opportunity to throw out the ceremonial first pitch at the Angels game late last month. As a huge baseball fan, it was an honor that I will always remember.

Earlier this month, my office joined several local police departments and the Sheriff's Department for their annual National Night Out events, an annual event to build trust and foster strong police-community partnerships.

Lastly, Orange County Parks is hosting its Summer Concert Series and Summer Cinema Series. All concerts are free to attend, with free parking beginning at 5 p.m. Concerts begin at 6 p.m. and last approximately two hours. Bring blankets, beach chairs, and the kids! Concertgoers can purchase delicious bites and snacks at the on-site food trucks and concession booths.

The OC Parks Sunset Cinema Series continues at Irvine Regional Park with two more movie nights: "Elemental" on August 15 and "Shrek" on August 22. Movies start at sunset (around 8:10 p.m.) but arrive early to grab a spot! Free parking is available starting at 6 p.m.

For more information, visit [OCParks.com](http://OCParks.com).

## IN THE NEWS

### BOARD OF SUPERVISORS PASSES SUPERVISOR DON WAGNER'S RESOLUTION TO SUPPORT CALVET'S FEDERAL GRANTS APPLICATION FOR SOUTHERN CALIFORNIA VETERANS CEMETERY AT GYPSUM CANYON

(Santa Ana, CA) – At the August 12 Board meeting, the Orange County Board of Supervisors unanimously passed Supervisor Wagner's resolution to support the California Department of Veterans Affairs' application to the federal government's Veterans Cemetery Grants Program for the Southern California Veterans Cemetery at Gypsum Canyon.

"Orange County is home to more than 100,000 veterans, yet we remain the largest county in California without a dedicated veterans cemetery," said Supervisor Wagner. "The site at Gypsum Canyon is shovel-ready, has widespread community support, and represents a viable and immediate option for delivering on this long overdue promise."

By approving this resolution, the Board is helping advance the efforts to secure federal grant funding needed to establish the Southern California Veterans Cemetery at Gypsum Canyon in Anaheim Hills.

Since taking office, Supervisor Wagner has made it a priority to make the decades-long promised Orange County Veterans Cemetery a reality. The location in Gypsum Canyon has received the support of all 34 cities in Orange County, the County of Orange, the State of California, and over 100 local, state, and national veterans' organizations.

## THE MORNING ANSWER

I joined Jennifer Horn on The Morning Answer to discuss the massive increase in U-Hauls out of California as a result of Sacramento's policies, and what can be done to reverse this trend.

You can listen to the full interview [here](#).

## IN THE COMMUNITY

### ANGELS FIRST PITCH

I had the incredible honor of throwing out the ceremonial first pitch at the Angels game in Anaheim.

As a lifelong baseball fan, some of my most cherished memories are of bringing my kids and grandkids to games and sharing the magic of the ballpark with them. From every cheer to each seventh-inning stretch, those moments were special.

To top it off, Mike Trout delivered his 397th career home run, a two-run blast that also marked his 1,001st RBI.

### TASTE OF YORBA LINDA

Congratulations to the Yorba Linda Chamber of Commerce for organizing another incredible Taste of Yorba Linda! I'm proud to be a sponsor of this annual event.

This annual celebration brought together local flavors, live music, and the unmistakable energy of a vibrant community. If you've ever been to Taste of Yorba Linda, you already know: Yorba Linda serves up some seriously delicious eats at its local restaurants.

Cheers to everyone who helped make this year's event possible, and to Yorba Linda's continued growth and success!

## LUNA PARK GRAND OPENING

Team Wagner attended the grand opening of Luna Park in Irvine and joined a workout class, one of the featured activities during the park's inaugural festivities. My Field Representative, Al Tello, always seems to get the tough assignments, but he handles them like a pro, I must say.

Luna Park (Orange County's largest neighborhood park) is a 13-acre park featuring a spectacular playground, two swimming pools, a ninja course, zipline, BBQ areas, expansive lawn shaded by heritage trees, and an impressive array of sports courts including pickleball, basketball, and handball.

The grand opening was a daylong celebration, bringing families together with interactive activities, a delicious lineup of food trucks, and neighborhood fun that captured the spirit of Irvine's newest community.

## MISSION VIEJO ROTARY CLUB'S PEACE AND MENTAL HEALTH POLE

My Community Outreach Director, Saga Conroy, joined Congresswoman Young Kim and other local leaders at the Mission Viejo Rotary Club's Peace/Mental Health Pole Dedication Ceremony for what is believed to be the World's First

Mental Health Awareness Pole, a lasting symbol of Rotary International's global mission to promote mental health, peace, and community connection.

We thank Mission Viejo Rotary Club for all its volunteer efforts in the community.

## OC PARKS SUMMER CONCERT SERIES

It was wonderful to be at Irvine Regional Park to introduce our entertainment and see such a terrific turn-out. Thanks to everyone who attended the free OC Parks Summer Concert Series featuring Dream Like Taylor and Jessica Vines.

A huge thanks to Orange County Parks, park rangers, and staff at Irvine Regional Park for hosting this event. Also a thank you to all of you who stopped by our booth and said "Hello!"

For more information on the Summer Concert Series and other OC Park events, visit [OCParks.com](http://OCParks.com).

## NATIONAL NIGHT OUT- VILLA PARK

Team Wagner attended Villa Park's National Night Out, which featured vehicles and booths from OCSD, OCFA, the Highway Patrol, and various service organizations. Ice cream and other treats were handed out to attendees, making for a fun and informative evening enjoyed by all.

National Night Out is an annual nationwide event focused on crime prevention and fostering strong police-community partnerships. It promotes safety, neighborhood unity, and the prevention of crime, drugs, and violence. By bringing law enforcement and residents together in a positive and engaging environment, National Night Out strengthens relationships and helps restore a true sense of community.

Proceeds benefit Silverado Modjeska Recreation and Park District and Zachary Dupre Concert Venue Upgrades

# MOSQUITO SEASON

Orange County Mosquito and Vector Control District  
ocvector.org

## LIFE CYCLE OF AN Aedes MOSQUITO

## MAINTAIN YOUR DRAIN

It's crucial to keep your yard drain well-maintained if you want to avoid breeding Aedes mosquitoes in it. These mosquitoes are known for their ability to lay eggs in even the smallest water sources, and a clogged or neglected drain can easily become a breeding ground for them.

In addition to yard drains, other sources such as bird baths, flower pots and gutters should also be regularly cleaned and maintained.

## MOSQUITOES IN ORANGE COUNTY

Are you tired of getting bitten by mosquitoes while enjoying a nice walk or relaxing on your porch with a cup of coffee? This mosquito is known as the arctic blue, also known as the Aedes mosquito. These black and white striped mosquitoes are known for biting during the daytime and can be found in every city in Orange County.

While the Orange County Mosquito and Vector Control District conducts wide area treatments, smaller sources of water around your pets, yard or indoor space can also attract mosquitoes. These insects only need a small amount of water to complete their life cycle, so it is important for every resident to take an active role in mosquito control.

## RESOURCES

Orange County Mosquito and Vector Control District (OCMVCD) provides a range of resources to help residents take an active role in mosquito control.

One of the resources offered is the DIY page. This page provides step-by-step instructions on how to control mosquitoes in your yard. You can learn how to identify mosquito breeding sources, eliminate stagnant water and use insecticides safely and effectively. Visit [ocvector.org](http://ocvector.org) for more information.

## MOSQUITOES CAN MAKE YOU SICK! Eliminate mosquito breeding in your garden.

Plants need water to grow. But water that stands for longer than 4 days can become a breeding site for mosquitoes. Water-holding plants can create hundreds of mosquitoes and increase the risk of mosquito transmitted diseases if a local outbreak was to occur. Use these tips to reduce mosquito breeding and prevent invasive mosquitoes.

## General tips

- ☐ Maintain irrigation systems to avoid standing water.
- ☐ Flush water-holding plants with clean water and turn over to drain.
- ☐ Avoid water-holding plants in displays that cannot be drained every 4 days (living walls, heavy containers).
- ☐ Root plants in material that limits standing water (e.g., perlite, plant gel, water storing crystals).
- ☐ Inspect garden weekly for mosquito larvae. Contact your local mosquito and vector control district for guidance.
- ☐ Store open containers upside down or place under cover to avoid rainfall and irrigation water.

## Water feature tips

- ☐ Circulate water with a pump.
- ☐ Flush out and replace water every 4 days.
- ☐ Use a larvicide treatment.
- ☐ Place mosquito-eating fish in water (often available for free from local mosquito and vector control agencies).
- ☐ Thin aquatic plants so fish can access all areas.

## Bromeliad tips

- ☐ Water bromeliads at the roots and keep the tanks and cups free of water.
- ☐ Keep any remaining standing water clear, free of debris, and flushed frequently.
- ☐ Prevent bromeliads from multiplying and growing into a dense mass.
- ☐ Avoid planting in landscapes or other features that cannot be turned over.

## ELECTRICAL FIRE SAFETY

Home electrical fires are responsible for an estimated 80,000 fires and \$1.3 billion in property damage each year. Protect your family and your home by following these electrical safety tips.

Inspections by qualified electricians reduce fire risk and are required by many home insurance policies.

Orange County Fire Authority

(714) 573-6200  
[ocfa.org](http://ocfa.org)

## Appliances

- Always plug major appliances directly into wall outlets.
- Unplug small appliances when they are not in use.
- Check electrical cords on all appliances regularly. Replace any cracked, damaged, or loose cords. Never try to fix them yourself.
- Place lamps on level surfaces, away from things that can burn.
- Always use bulbs that match the recommended wattage for each lamp or fixture.

## Outlets

- Never overload wall outlets.
- Insert plugs fully into sockets.
- Install tamper-resistant electrical outlets if you have young children.

## Extension Cords, Power Strips, and Surge Protectors

- Replace worn, old, or damaged extension cords right away.
- Only use extension cords for a short period of time.
- Do not run electrical cords across doorways or under carpets.
- Do not overload power strips.
- Use surge protectors, not power strips, with electrical devices that require a lot of electricity to operate.

## Electrical Fire Warning Signs

- Frequent problems with blowing fuses or tripping circuit breakers
- A tingling feeling when you touch an electrical appliance
- Discolored or warm wall outlets
- A burning or rubbery odor coming from an appliance
- Flickering lights
- Sparks from an outlet

# LITHIUM-ION BATTERIES

In today's technology driven world, lithium-ion batteries are powering electric vehicles, cell phones, e-bikes, laptops, toys, smoke alarms and power tools. These batteries can be dangerous if they overheat, and can cause a fire or explosion. Keep yourself and your family safe by following these safety tips.

According to the Data Bridge Market Research, the global lithium-ion battery market was valued at 6.70 billion in 2021 and is expected to reach 26.28 billion by 2029.

Orange County Fire Authority  
(714) 573-6200  
ocfa.org

**Lithium-Ion Battery Fires:**

- Emit toxic gases within seconds
- Burn hotter and faster than others
- Can't be smothered like other fires
- Can cause explosions within seconds
- Can reignite up to 21 days later!

**Safety Tips**

- Purchase batteries that are listed by a Nationally Recognized Testing Lab (NRTL)
- Know the manufacturer instructions and safety information for use, storage, charging and maintenance
- Never overload your outlet when charging any device with a lithium-ion battery
- Never place the batteries in direct sunlight or a hot vehicle
- Store batteries in a cool, dry location

**Charging and Disposal**

- Charge the device properly and only with the cords that came with the device
- Unplug the device once it is fully charged
- Do not charge batteries when the environment is below freezing (32°F) or too hot (130°F)
- Never charge the device under a pillow, on your bed or on a couch.
- Keep lithium-ion batteries away from combustible materials when charging
- Never throw lithium-ion batteries in the trash
- Contact your local recycling center or waste management department for proper disposal
- Do not put discarded batteries together in a container or pile

**Warning Signs**

- Unusual odor
- Charge in color
- Too hot to the touch
- Change in shape
- Not keeping a charge
- Smoking or sparking when plugging in
- Unusual Noises (popping, hissing, buzzing)
- Leaking of liquid

**If You Have a Fire From a Lithium-Ion Battery**

- Leave the area immediately as the batteries emit toxic gases and burn extremely hot, with explosions occurring in seconds
- Call 9-1-1
- DO NOT try to fight or extinguish the fire

November 2022

## WHAT IS A PUBLIC SAFETY POWER SHUTOFF (PSPS)?

A PSPS is when an electric utility temporarily shuts off power to reduce the risk of a wildfire caused by utility equipment. Dangerous fire weather conditions — which include strong winds, dry vegetation and low humidity — drive PSPS events. Sometimes PSPS lasts over 24 hours.

Learn more about PSPS and get answers to frequently asked questions at [ocpsps.org](https://ocpsps.org).

## SIGN UP FOR ALERTS

Alerts are available for anyone. Before a potential PSPS, we'll send notifications via email, text or phone messages. We'll keep you informed during the outage and when power has been restored. Advance notifications may not be possible in unexpected weather conditions.

Sign up for PSPS alerts in English or other available languages at [ocpsps.org/alerts](https://ocpsps.org/alerts).

## EMERGENCY RESOURCES

Essential services and resources are available to help you prepare for an emergency and navigate PSPS events.

### PREPARING FOR PSPS

- Have a plan and prepare your home to keep your family safe during any outage. That includes a list of the location of emergency items such as water bottles, battery-operated radios, flashlights, fire and first aid kits, extra batteries and working batteries.
- Refer to our [limited checklist](#) to prepare for a PSPS outage.
- Download the [Orange County PSPS app](#) or download the MyOC mobile app.

### GENERATOR AND BATTERY REBATES

- A free backup battery to help power medical devices during outages is available to customers living at high fire risk areas and enrolled in SCE's Medical Baseline Discount program.
- Visit the [SCE Marketplace](#) for portable power options and generators. Receive up to \$1,000 rebate for qualifying residential portable power stations and up to \$500 for qualifying portable generators.

### CUSTOMER SUPPORT PROGRAMS

- Find resources and support for customers with access and functional needs, as well as community assistance and emergency preparedness information at [ocpsps.org/support](https://ocpsps.org/support).
- If you or someone in your house relies on electricity for health reasons, visit [ocpsps.org/health](https://ocpsps.org/health) to prepare and stay safe during PSPS events.
- SCE Community Resource Centers and Community Care facilities are located or open with additional resources to provide essential customer service during PSPS events. SCE and OCFA resources are listed on the [outage tool](#) during PSPS.
- Hotel discounts during prolonged outages can be found at [ocpsps.org/hotel](https://ocpsps.org/hotel).

### STAY SAFE DURING A POWER OUTAGE

- Never touch or approach a downed power line — stay at least 100 feet away. When safe, call 911 immediately.
- Unplug appliances and electronics to avoid damage or data loss. If you have electric grills or griddles, turn to operate them manually.
- Gasoline and gas-powered generators should never be used indoors. Generators and batteries should not be connected directly to household circuits without the appropriate safety equipment. Doing either is dangerous for you and repair crews.
