

[!\[\]\(c8d96c8885d3000a912c2582004aed63_img.jpg\) Share](#) [!\[\]\(3ad821e3ca7dd4cb7003e9c8d982e254_img.jpg\) Post](#) [!\[\]\(177bde115c7ebbeffa559d05eea9e94b_img.jpg\) Share](#)

As we welcome 2026, let me begin by expressing my gratitude to all of you for allowing me to serve as Supervisor for the Third District. I want to reflect on the most significant moments of the past year.

2025 was a very eventful year, with many challenges and successes. Among them:

1. Inaugural Celebration for USA 250 OC

Last year, I had the privilege of helping kick off the Inaugural Celebration event for USA 250-OC! As the Honorary Chair of this monumental organization, USA 250-OC's goal is to engage the citizens and residents of Orange County in commemorating and celebrating the 250th anniversary of the Declaration of Independence and the birth of the United States.

Through several events and initiatives last year and this year, USA 250-OC has engaged with communities across Orange County to explore the history and fundamental principles underlying our constitutional government, advance the historical ideals and aspirations embodied in the Declaration of Independence, the Constitution, and the Bill of Rights, and inspire the American spirit through recognition of our shared heritage, common rights and responsibilities, and respect for each other.

I am excited to be part of this organization's goal to engage the local community as we approach the 250th anniversary of our great nation on July 4, 2026!

2. SR-71 Improvement Project Groundbreaking

Last March, I had the honor of speaking at the groundbreaking of the SR-91 Improvement Project, which spans from SR-57 to SR-55, running through parts of the Third District.

In partnership with Caltrans, OCTA launched a transformative project to improve the SR-91 corridor. Working alongside the cities of Anaheim, Orange, Placentia, Fullerton, and Yorba Linda, this initiative aims to provide smarter, more efficient travel. Designed to reduce congestion and enhance traffic flow, the project will address issues like weaving and merging between ramps and interchanges, creating a smoother and safer commute for everyone.

During my remarks, I referred to our community as "the Thriving Third District." This project is a key part of why we are, indeed, thriving.

For more details on the project and its timeline, visit:

<https://www.octa.net/programs-projects/projects/freeway-projects/sr-91-sr-57-to-sr-55-improvement-project/overview>

3. Grand Opening for OC Health Care Agency's Marine Way Campus in Irvine

Last April, I joined my colleagues on the Board for the grand opening and ribbon cutting for the OC Health Care Agency's new Marine Way Campus in Irvine.

This 68,000 square foot state of the art facility will allow centralization of several agency divisions, and includes a public health lab, community and nursing services, an emergency management center, and an agency operations center.

This two year project was completed on time and within budget and gives our Health Care Agency even more tools to address the versatile health needs of Orange County's communities.

4. SCAQMD Board of Directors Rejects Harmful Environmental Rules After Massive Public Pressure

Last June, the South Coast AQMD Governing Board voted to reject proposed rules 1111 and 1121 on a 7-5 vote. The board heard the overwhelming opposition from homeowners, renters, businesses, and the rest of the public who would have been decimated by these rules. This was a victory for everyone in the Southern California region who supports our housing industry and a strong quality of life. I am proud to have first raised the alarm over these rules during my time on the SCAQMD board and thank my former colleagues for their wise and responsive decision. My opinion piece spearheading opposition to these bad rules is [here](#).

I want to thank all of my colleagues here in Orange County, including local elected officials, businesses, community organizations, homeowners and grass roots citizen groups and individuals in pressuring SCAQMD to abandon these rules which would drive up costs of homeownership during a housing shortage without making the air significantly any cleaner.

While this outcome is welcome and worthy of celebrating, the fact that this vote was so close is a clear reminder that we must remain vigilant in protecting the public from these types of destructive environmental mandate schemes dreamed up by unelected bureaucrats.

5. AB 571 and Progress on Veterans Cemetery

On July 14th, I stood on steps of the State Capitol to speak in strong support of AB 571 and to reaffirm Orange County's unwavering commitment to finally

delivering a veterans cemetery for our community.

I want to commend Assemblymember Sharon Quirk-Silva for her extraordinary leadership. For over a decade, she and I have worked to build coalitions, navigate political challenges, and never lost sight of the mission.

Support for AB 571 is broad and bipartisan. All 34 cities in Orange County, over 150 veterans organizations, public safety leaders, labor groups, and elected officials at every level have united behind the cause of creating this cemetery.

Orange County remains the largest county in California without a veterans cemetery. That must change. This is about gratitude, but it's also about fulfilling our responsibility to those who served.

With AB 571, we are moving forward together to deliver the dignity and final resting place our veterans so deeply deserve.

6. North Tustin Zip Code Bill Passes US House of Representatives

Last July, the US House passed Rep. Young Kim's bill to secure a unique zip code for North Tustin. This is a critical step toward resolving a long-standing tax issue burdening the community.

For years, I've heard from residents frustrated by taxation without representation. They pay Santa Ana sales tax rates yet living in the lower taxed unincorporated North Tustin. A unique zip code will help prevent this issue.

Thank you to Congresswoman Kim for working with me on this important effort and delivering results for our shared constituents. The bill now awaits US Senate approval.

Read more on the bill's passage [here](#).

7. 241/91 Express Connector Project

Last year, the Foothill/Eastern Transportation Corridor Agency's Board of Directors approved the necessary agreements to move forward with the 241/91 Express Connector project.

Once completed, this \$524 million project will allow drivers traveling on the 241 Toll Road to seamlessly connect directly into the 91 Express Lanes.

As Chairman of the 241/91 Express Connector Ad Hoc Committee, I am thrilled to see this critical project move forward, improving connectivity and commute times for the traveling public.

Construction is expected to commence in 2026. The project's completion date is estimated for 2029.

The 241/91 Express Connector project offers numerous benefits to commuters and the environment:

- Provides a new route choice
- Shortens queues on 241 Toll Road
- Reduces weaving and merging between the 241 and 91 corridors, enhancing traffic operations
- Travel time savings through the 241/91 corridor, including travel on the 91 general purpose lanes, based on date, time and direction of travel
- Reduces carbon emissions, fuel consumption, and improves air quality
- Improves regional mobility

8. Board of Supervisors Adopts Fire Hazard Weed Abatement Program

Last April, my colleagues on the Board of Supervisors and I unanimously approved the adoption of a resolution I championed authorizing OC Public Works to abate weeds and combustible vegetation that are a public nuisance and a fire hazard. My district is the most wildfire prone in the county given our expansive open spaces.

Orange County continues taking proactive measures to ensure the safety of our residents. It is incumbent upon us, as the leaders of this county, to ensure the safety and security of our communities. Here in Orange County, we work constantly to prevent anything like the magnitude of destruction we saw recently in Los Angeles County from ever happening. That starts with removing fire-prone vegetation threatening our community's safety.

This resolution authorized OC Public Works to use contract services to abate weeds and combustible vegetation on private properties in Orange County's unincorporated areas when property owners have failed to abate weeds and other fire-prone vegetation after notification.

This program is a vital preventative measure to ensure we have the best fire mitigation practices and that our first responders and Orange County communities are in the best position to prevent a wildfire from starting.

9. Board of Supervisors Agree to Partially Investigate Voter Rolls

Last fall, the Orange County Registrar of Voters found that a dog was registered to vote, and had a vote counted in a recent election. He also reported multiple other illegal voters on our voting rolls, such that the US Department of Justice has sued Orange County.

While the Board of Supervisors failed to support my efforts to cooperate with the DOJ, it at least agreed to look into whether vote fraud is being perpetrated through misuse of animal names and records. The measure, authored by Supervisor Janet Nguyen and myself, passed with a 3-1-1 vote.

The fact that a dog was registered and voted in two elections here in Orange County proves just how vulnerable our system is and why we need Voter ID laws in California. It is absolutely essential that our voter rolls be clean, accurate, and trustworthy. Anyone eligible to vote should be encouraged to do so and no one, or animal, ineligible to vote should be on our rolls. Now, if only I could get the Board majority to cooperate with the DOJ!

10. Veterans Concert and Resource Fair

Last November, my office, along with Angel Force USA, hosted a Veterans Concert and Resource Fair at the Kershaw Garden in Mission Viejo ahead of the Veterans Day Holiday.

We were also joined by the City of Mission Viejo, City of Lake Forest, City of Rancho Santa Margarita, U.S.VETS, Patriots and Paws, and the Tierney Center for Veteran Services, who all provided materials for their veteran services to the attendees.

The live music, food trucks, and great weather were a perfect way to celebrate our Orange County veteran community. I am grateful to all our partners who worked to make this event happen.

11. Veterans Cemetery Hearing

Last November, I participated in a State Legislative hearing at the Anaheim City Council chambers hosted by Assemblywoman Sharon Quirk-Silva on the progress of the Veterans Cemetery in Gypsum Canyon.

I spoke to the legislators about how Orange County has done everything required to move this project forward.

We secured the land, dedicated \$20 million, and earned the U.S. Department of Veterans Affairs' confirmation that Gypsum Canyon meets every federal standard. The only remaining step is for the state to take ownership of the property. As the VA has made clear, the state doesn't need to wait for federal funds. Taking ownership now is what unlocks those funds.

Our veterans have waited long enough. Working together with all our federal, state and local partners, we can finally get shovels in the ground and deliver the dignified, long-promised resting place our veterans and their families deserve.

12. Orange County Animal Rescue Team

At the December 16th Board of Supervisors meeting, the Board unanimously approved the allocation of \$75,000 from my office's discretionary funds to El Rodeo Rescue. This grant funds the new Orange County Animal Rescue Team (OCART). Under the Plan of Cooperation between the County of Orange and OCART, trained volunteers will be deployed to evacuate large animals during emergencies.

In late 2023, the San Juan Capistrano Large Animal Rescue Team stopped providing resources countywide, creating a gap in a vital service for large animal evacuations. Over the past several months, my office has worked closely with the Orange County equestrian community to establish a County-supported program with dedicated volunteers willing to assist during emergencies. I am delighted to offer this resource, providing owners of large animals peace of mind in the case an evacuation is ever needed.

The funds approved will cover costs related to insurance, training supplies, a rescue trailer, volunteer equipment, and other necessary materials. OCART will be a trained volunteer team dedicated to assisting with large animals during emergencies, especially wildfires throughout Orange County.

My top priority is the public safety of Orange County, and ensuring that the equestrian and ranching communities have a robust, well-coordinated emergency

response team is essential toward strengthening and improving the County's disaster response capabilities.

13. Fourth Annual Fishing Derby

With an estimated 1,300 people in attendance, my Fourth Annual Trout Fishing Derby was an incredible success!

Hundreds of people lined up outside the gate to Irvine Lake before the sun even rose, and spent the entire day reeling in fish on a wonderful sunny Saturday of family friendly fun.

The largest fish came in at 5.22 lbs, with second place at 5.09 lbs, and third place at 3.21 lbs.

Congratulations to the top three winners of the largest caught fish!

A big thank you to Orange County Parks and James Events for all their hard work in coordination with our office to make this happen. We couldn't have done this without you!

As a token of my appreciation to OC Parks for their partnership in this fantastic annual event, I presented OC Parks Director Pam Passow with a certificate of recognition.

14. 2025 Orange County Hall of Fame

The Orange County Board of Supervisors held its Third Annual Hall of Fame Induction Ceremony. A big congratulations to all of the Class of 2025's inductees:

- James Cameron – Music, Arts & Entertainment
- Eddie Sheldrake – Sports
- Henry & Susan Samueli – Philanthropy
- Carl St. Clair – Music, Arts & Entertainment
- Robert August – Music, Arts & Entertainment
- Ed Laird – Philanthropy
- Ed Caruthers – Sports
- Sammy Lee – Sports
- James Irvine I – Philanthropy
- Gaddi Vasquez – Civics

I thank all of our inductees for their impact on Orange County and look forward to celebrating next year's class!

THE MORNING ANSWER

The Morning Answer

Quick Reaction Force

HOSTED BY JENNIFER HORN

I joined Jennifer Horn on The Morning Answer to discuss Orange County's fire safety and the continued availability to Orange County residents of the Quick Reaction Force's water dropping helicopters.

You can listen to the full interview [here](#).

HOLIDAYS

DR. MARTIN LUTHER KING JR. DAY

Happy Martin Luther King, Jr. Day!

Dr. King was a monumental figure who boldly but peacefully stood against the inequalities faced by so many Americans of his time. His message of peaceful desegregation during the Civil Rights movement called us to become a truly colorblind society that guarantees equality of opportunity.

His timeless message of not judging a man by the color of his skin but by the content of his character still resonates with us today.

As we commemorate the man who helped bridge the racial divide in our society, let us remember his famous words: "I have a dream, a dream deeply rooted in the American dream – one day, this nation will rise up and live up to its creed, 'We hold these truths to be self-evident: that all men are created equal'."

IN THE COMMUNITY

REGIONAL HOUSING POLICY CONFERENCE

I had the pleasure of serving as a panelist at the Regional Housing Policy Conference, hosted by the Building Industry Association of Southern California. The event brought together leaders and experts to examine housing policies across our region and the state, with the shared goal of advancing practical solutions that support sustainable housing development.

California continues to grapple with a severe housing shortage—an issue rooted in decades of underproduction and burdensome government regulations. These factors have driven housing prices to unaffordable levels, making homeownership increasingly out of reach for many residents. As a result, countless first-time homebuyers are left with little choice but to seek more affordable opportunities in other states, such as Texas.

Many thanks to Jeff Montejano, CEO of BIA Southern California, and Joe Oftelie, President of BIA Orange County, for their leadership and commitment to addressing this critical issue.

OCBC GOVERNMENT AFFAIRS COMMITTEE

I was honored to speak with the Orange County Business Council's Government Affairs Committee on Friday about the County's priorities for the year ahead. I'm grateful for our strong partnership and our shared commitment to keeping Orange County prosperous by strengthening our economy, supporting local businesses, and keeping our community thriving.

FLYING LEATHERNECK MUSEUM TOUR

I had the pleasure of taking an in-depth tour of the Flying Leatherneck Aviation Museum project. I was impressed with General Aguilar's compelling briefing, the museum's goal of preserving Marine Corps aviation history while advancing hands-on STEM education for the next generation.

My District Director Scott Voigts and Community Outreach Director Saga Conroy spent time with the Flying Leatherneck team and student builders.

I am so excited for the opening of the new museum at Great Park, and can't wait for the public to experience the fantastic educational opportunities and historical preservation of our military history that the Flying Leatherneck Museum offers.

PUBLIC WORKS TOUR

Our Third District staff, along with others, recently toured our Department of Public Works' Agriculture, Weights & Measures division. Our Agricultural Commissioner/Sealer of Weights & Measures, Jose Arriaga, along with his staff, discussed the current happenings in the division as they gear up for a busy 2026.

Also on display was Orange County's newest detector dog, Georgia, who demonstrated her skills in searching and detecting unmarked agricultural products hidden in unsuspecting mail packages. Thank you to all of the Agriculture, Weights & Measures staff for their efforts in making this division run smoothly.

YORBA LINDA CHAMBER OF COMMERCE INSTALLATION LUNCHEON

My Field Representatives, Pat Buttress and Al Tello, attended the Yorba Linda Chamber of Commerce Installation Luncheon and Best of Yorba Linda awards.

Over 60 Yorba Linda businesses won Best Of and were recognized with certificates from my office. The new Board President, Juan Carlos Vazquez, and Board of Directors were also installed.

Also recognized were Frank Stefano's Golden Baked Hams as Business of the Year, Norma Rodriguez as Ambassador of the Year and Simone LeCompte as Board Member of the Year.

Once again the luncheon was a sold out event. The event was enjoyed by all and the event was a great opportunity to recognize so many wonderful community leaders and businesses.

HUB RESOURCE CENTER CLOTHING SHED

My Field Representative, Pat Buttress, presented a certificate of recognition to the Clothing Shed a new addition to the HUB Resource Center in Orange.

For the first time, guests will be able to step inside the facility and select the clothing that best meets their needs.

This new resource is designed to offer dignity, autonomy, and a truly personalized experience to the individuals served by The HUB OC. The Clothing Shed will play a vital role in enhancing daily services for homeless individuals and those navigating crisis.

ACE HARDWARE RSM GRAND OPENING

My District Director, Scott Voigts, and Community Outreach Director, Saga Conroy, welcomed the new ACE Hardware at its opening in Rancho Santa Margarita!

At the ribbon cutting, there was a special wood board cutting demonstration per ACE's tradition.

Wishing ACE Hardware great success, as it will be a wonderful addition to the RSM community.

2026 Point In Time

DONATIONS NEEDED

HELP ENSURE EVERYONE COUNTS IN ORANGE COUNTY!

Everyone Counts OC is a part of a national effort to better understand homelessness. The Point In Time (PIT) Count is a federally mandated biennial count conducted in communities across the country to estimate the number of people experiencing unsheltered homelessness on a single night. Contributions to the event will be distributed by volunteers to individuals and families experiencing unsheltered homelessness who participate in a survey during the 2026 PIT Count.

Items needed to make this event possible include:

- Snack kits and hygiene kits
- \$25 gift cards to grocery stores
- \$10 gift cards to food establishments
- Cases of water bottles
- Rain ponchos
- Monetary donations to obtain the above items

Email info@everyonecountsoc.org to coordinate your donation.

All volunteers must be 18 years or older and will be required to complete training specific to their chosen volunteer role.

Everyone Counts in Orange County!

What: The Point In Time Count is a count and survey of people experiencing homelessness on a given night during the last ten days in January. The Point In Time Count provides vital information that helps the County of Orange (County) and the Orange County Continuum of Care (CoC) better understand homelessness in the community and guides the response to homelessness in Orange County.

Why: The U.S. Department of Housing and Urban Development (HUD) requires over 400 CoC jurisdictions across the nation to complete a biennial unsheltered count and an annual sheltered count of all individuals experiencing homelessness on a single point in time during the last ten days of January.

The Orange County 2026 Point In Time Count will provide information regarding:

- Number of people experiencing homelessness in Orange County
- Locations of where people experience homelessness within Orange County
- Demographics of individuals and families experiencing homelessness
- Subpopulation data such as number of Veterans, Transitional Age Youth (ages 18 to 24), and Seniors (age 62 and older)
- Number of people affected by disabilities, including physical and mental health concerns

This information helps the organizations working to address homelessness in Orange County identify which services are needed, identify trends and changes in demographics over time, and decide how best to work together to collaboratively solve this complex social issue.

How: The Orange County 2026 Point In Time Count will be conducted in partnership with street outreach agencies, homeless service providers, and local experts, including law enforcement agencies and people with lived experience of homelessness. The County contracted with City Net to compile geographical data on hotspot locations for the Orange County 2026 Point In Time Count maps. Maps will be created for each city in Orange County and will guide where volunteers are deployed to canvass and survey people experiencing unsheltered homelessness. The Orange County geographical region will be canvassed at least two times by teams composed of one Team Captain and two to three Field Surveyors. Surveying teams will deploy from one of six geographically appropriate Deployment Centers that will be active between January 27 - 29, 2026.

When: The County and the Orange County CoC will conduct the sheltered count the night of Monday, January 26, 2026, and the unsheltered count starting the morning of Tuesday, January 27, 2026, through Thursday, January 29, 2026. One Service Planning Area (SPA) will be counted per day.

Central SPA - January 27 | North SPA - January 28 | South SPA - January 29
